OBJECTIVE

I am looking for a front-end web development position where I can produce high quality value for the company and clients by building web applications using modern tools and applying best practices.

WORK EXPERIENCE

WEB DEVELOPER
Freelance - Tucson, AZ - January 2022 - Present
- Designed and developed a variety of websites using HTML, CSS, JavaScript, React and WordPress.
- Performed ongoing management and maintenance of client sites, including edits, updates, setting up web hosting, and domain registration.
- Found and worked with new clients online at platforms such as Fiverr and Upwork.

BOOK DEPARTMENT SUPERVISOR/MANAGER ON DUTY
Bookmans - Tucson, AZ - January 2006 - January 2022
- Supervised and managed a staff of Book Buyers to ensure departmental profitability and productivity.
- Online ordering of new books to supplement the supply of used books acquired at the trade-in counter, under my supervision.
- Training new staff members in all aspects of used book buying and merchandising, as well as writing staff evaluations and reviews.

TECHNICAL SUPPORT AND COMMUNICATIONS ASSISTANT
CSD - Tucson, AZ - January 2000 - December 2005
- Shift supervisor for technical support and connectivity issues for America Online customers who are deaf and hard of hearing, communicating via computer terminal interface.
- Handling escalated support issues and staff questions.
- Ensuring customer access via monitoring network status.
